Some of the Entertainments for the Week-The Propylaenm Library Party.

Easter day is a time when nature and persons appear in a new dress. The formthe old, old style of fullness and richness, but the latter changes frequently. The two qualities of nature, however, are in harmony with the dress of persons this season. The churches have provided elaborate musical services for both morning and evening. The ministers have ready their sermons, something a little more than usual and the congregations will bloom like the proverbial garden. The glorious spring days of the last week have been quiet, as far as social matters have been concerned, but busy for the shoppers. The shops have been filled with purchasers and the windows overflowing with articles appropriate for the Easter season of giftgiving. In some families, where there are children, there will be egg hunts early this morning. The rabbits are supposed to hide eggs, gay colored as well as white ones, in the queerest corners and places and the children get up and are out early to find them. It will be a poor child indeed, who has not an egg for Easter. To-morrow the teachers of the public schools will have what the children call "an egg shower."

Eggs and new bonnets rule the day. It is considered an omen of good if a new article is worn or carried to-day, even if there is no new suit or dress. After today the social movement will begin. The Library Masquerade comes to-merrow night. The Press Club reception will be after the Professional Matinee Tuesday. Cards and invitations will begin to fly broadcast and engagements be made for days and evenings. People are talking of summer trips and visits, and Indianapolis people will be all over the world within the next few months. Numerous circulars for summer tours have been sent out far and wide and the tempting itinarary cannot be withstood by some.

The Library Dance. The one large party arranged for this week is the library masquerade to be given to-morrow evening at the Propylacum. The preparations point to a most successful gathering. It will be novel in the extreme, nothing of the kind ever having been given here before. The ladies who have the affair in charge are Mrs. Bement Lyman, chairman, Mrs. H. B. Holman, Mrs. H. H. Howland, Mrs. Harry B. Gates Mrs. W. J. Brown, Mrs. C. H. Comstock, Mrs. J. K. Sharpe, jr., and Mrs. James M. Winters. Those who will receive are Mrs. G. F. Adams, Mrs. Bement Lyman, Mrs. H. B. Holman, Mrs. C. F. Sayles and Mrs. C. H. Comstock, who are officers in the Industrial Comstock, who are officers in the Industrial Union, under whose auspices the masquerade will be given. Mrs. H. B. Gates, Mrs. Adams, Mrs. A. B. Gates, Mrs. Adams, Mrs. A. B. Gates, Mrs. J. Albert McKee, Mrs. Horace Eddy and Mrs. W. J. Brown will have charge of the refreshments and Mrs. Dietrichs, Miss Roberts and the Misses Gaston will have charge of the candy and the bon bons will be under the charge of Misses Emily Winters, Eloise Lyman, Edith Wilson and Lydia Latham. Miss Eliza G. Browning, city librarian, will act as head librarian for the "books" and her assistants will be Miss Dilks, Miss Stewart, Miss Adele Wallick, Miss Howland, Mrs. F. T. Hord and Mrs. H. H. Howland. The following men will act as floor managers: Messrs. H. H. Howland, J. K. Sharpe, ir., J. M. Winters, Bement Lyman, F. T. Hord, C. F. Sayles, J. A. Barnard and C. H. Comstock. Only those young women who have been invited by the committee will appear as "books." These will costume or wear some distinguishing mark representing the title of a book. The books will be in screened alcoves and will be chosen by catalogue names. Some persons have had the idea that the "books" would be plead catalogue names. Some persons have had the idea that the "books" would be placed on a platform where all might see them and on a platform where all might see them and be able to remark on their popularity. Some of the titles that have been chosen are "Ships that Pass in the Night," "Red as a Rose Is She," "The Yellow Aster," "The Green Carnation," "What Will We Do With It?" Seats for several hundred will be placed around the hail for spectators. Some of the costumes will be very pretty and unique. An orchestra of six pleces will furnish the music. At 10 o'clock the masks will be removed and the dancing will be general. Quite a number will go to the opera first and attend the library masquerade later.

THE ROCKING CHAIR. Cure for Dyspepsia and a Great National Blessing.

New York World. New York World.

"Critics of America," said a well-known physician, "have poked fun at us for being a nation of rockers. Americans have been plctured as 60,000,000 of persons seated in 60,000,000 rocking chairs—some of them cradles, of course. But now comes Dr. Laine, a French West India physician, who says it is good for us. He has been talking of what he calls the 'good effects that the lullaby chair exercises on subjects affected with atony of the stomach. Atony is want of tone. fected with atony of the stomach. Atony is want of tone.

"Laine says that a course of rocking chair after every meal, the oscillations being quiet and regular, 'stimulates gastro-intestinal peristaltism,' and that dyspeptics should take notice. The chair ought to be light, so that rocking requires no effort, and sufficiently inclined backward that the person may lie rather than sit in it. Physicians will agree that Dr. Laine has done Americans a real service. It has always been rather difficult to explain the national passion for the rocking chair, but now it is only too easy. Americans are the worst sufferers from indigestion and dyspepsia in the world, but it now appears that we have instinctively rushed to what is now proved to be the best system of relief.

"The man who lunches on pie and then relief.

"The man who lunches on pie and then balances himself in a rocking hair is unconsciously doing his best to stimulate his 'gastro-intestinal peristaltism;' he is practically singing a lullaby to his outraged and injured stomach, which is kept from crying aloud only by this method of soothing it. Behold in Americans a nation of invalids vainly endeavoring to rock them-

valids vainly endeavoring to rock them-selves to sleep. Dr. Laine's theory is too good not to be true." The Heathenish Moth Ball.

Now is the time to protest in the name of the public weal against the godless compounds called moth balls and all such remedies that are worse than a plague of moths would be. The smell of these things sickens many people intolerably, and the odor will cling for months, poisoning innocent atrangers in cars and public places.
